### ALC PROFESSIONAL PRESSURE BLASTERS

PROUDLY MADE  
IN THE USA

**Deadman Blasters** Manual pull up tank closure / Adjustable abrasive flow valve / 80 - 125 psi Operating pressure / Minimum air volume of 7 CFM @ 80 psi / Pressure gauge / Pressure relief valve - 125 psi / Pressure relieving ball valve

**40000 (F-45DM)**  
• 44 lbs. / Ships UPS

**40001 (F-65DM)**  
• 55 lbs. / Ships UPS

**40002 (F-100DM)**  
• 53 lbs. / Ships UPS

**40003 (F-110DM)**  
• 63 lbs. / Ships UPS

**40004 (F-150DM)**  
• 76 lbs. / Ships UPS

**40005 (F-300DM)**  
• 133 lbs.

Model No.	Blast Hood	Blast Time	Blast Hose Size	Ceramic Nozzle Size	Moisture Separator	Frame	Tank Dimensions	Overall Height	Wheel Size	Tank Volume	Approximate Capacity
40000	Standard	15-20 Min.	1/2" ID x 8'	1 ea. - 1/8" / 1 ea. - 3/32"	Optional	Tubular Steel	10" x 14"	35"	6"	0.45 cu. ft.	45 lbs.
40001	Bump Hat	20-30 Min.	1/2" ID x 10'	2 ea. - 1/8" / 1 ea. - 3/32"	Optional	Welded Steel	12" x 17"	29.5"	6"	0.65 cu. ft.	65 lbs.

**Remote Blasters** Automatic tank closure / Adjustable abrasive flow valve / 80 - 125 psi Operating pressure / Minimum air volume of 40 CFM @ 80 psi / Pressure gauge / Pressure relief valve - 125 psi

- 40011 (F-600R)**
- Heavy-duty blast hood
  - 1" ID x 25' Blast hose
  - 2-3 Hour blast time from 24" x 39" (6 cu. ft.) tank (600 lbs. capacity)
  - Pressure choke valve
  - Manual pressure release
  - Dual remote media valves
  - Welded steel frame
  - (1) 1/4" Tungsten carbide nozzle included
  - Moisture separator included
  - Overall height: 52" with 16" wheels
  - 425 Lbs. (skidded)

Converts Your Pressure Blaster Into a Soda Blaster in Minutes!

#### Conversion Kit

- Removes paint and graffiti without harming the surface
- Cleans engine compartments & other areas without harming the surface
- 2 Year warranty
- Environmentally friendly

**40416 with 1/2" & 3/8" fittings**  
Fits most brands of pressure blasters

#### Complete Kits

Includes Pressure Blaster Kit and the Soda Blaster Attachment

- 40002SB 100 Lb. ASME Certified**
- 40003SB 110 Lb. ASME Certified**

### ALC PROFESSIONAL STEEL BLAST CABINETS

PROUDLY MADE IN THE USA

Heavy-duty 14 gauge steel with welded seams / Includes foot pedal / Includes 150 watt light kit / High quality lined 24" gloves and cushioned foam armholes / 100 CFM dust collector included with all steel cabinets / Includes protective window underlay / Full opening top door and side door

**40403 36" Wide**

**40411 48" Wide**

**40413 60" Wide**

**41412 Dust Collector**

- Available separately
- 100 CFM vacuum
- Free standing
- 1.3 HP, 110 Volt, 50/60 Hz
- 2-1/2" x 6' hose
- 10 micron filtration filter bag (40267SM replacement filter bag)

Model No.	Operating psi	Air Consumption CFM @ 80 psi	Work Area (WxHxD)	Main Door Opening	Side Door Opening	Window Dimension	Door Open Height	Abrasive Capacity Min.	Grate Capacity	Overall Dim. (WxHxD)	Weight	Warranty

### ALC POLYMER BLAST CABINETS

PROUDLY MADE IN THE USA

One-piece construction (no leaks) / Self-adhesive protective window underlay / Pistol grip siphon gun / Optional foot pedal & gun kit available (11666) / Recommended use with shop vacuum as dust collector (not provided)

**40389 23" Wide Benchtop**

- Shown with optional light kit (40338)
- Ships UPS

**40390 30" Wide Benchtop**

- Shown with optional light kit (40338)
- Ships UPS

**40391 36" Wide Floor Model**

- Heavy-Duty 14 gauge steel legs
- Includes standard light kit

**40375 Air Hose Kit**

- 36" Goodyear® hose
- 1/4 NPT fittings
- Fits all ALC polymer cabinets
- Connects siphon gun to air supply

Model No.	Operating psi	Air Consumption CFM @ 80 psi	Work Area (WxHxD)	Main Door Opening	Window Dimension	Overall Height	Abrasive Capacity Min.	Grate Capacity	Overall Dim. (WxHxD)	Weight	Warranty

### ALC SIPHON BLASTERS

PROUDLY MADE IN THE USA

For use with dry abrasives only / Maximum 125 psi / 7 CFM@80 psi minimum / Lightweight and portable / Includes steel nozzles: 13/64", 1/4", 5/16" / Ships UPS

**40017 50 Lb. Blaster Kit (F-50)**

- 7 foot blast hose
- Free standing open top tank

**40018 90 Lb. Portable Blaster (F-90)**

- 10 foot blast hose
- Strong tubular steel cart with 6" wheels

**40013 Spot Blaster**

- Self recycling - dust free
- 1 lb. of abrasive included
- 5/16" ceramic nozzle
- Perfect for small jobs
- 20CFM @ 80 psi

**40015 Portable Blaster**

- Use abrasives or liquids
- 10' hose length
- Unlimited capacity
- 7 CFM @ 80 psi min.
- 13/64", 1/4" steel nozzles

**40012 Bottle Blaster**

- Use abrasives or liquids
- One quart capacity
- 15 CFM @ 80 psi
- 1/4" steel nozzle
- Light weight & portable

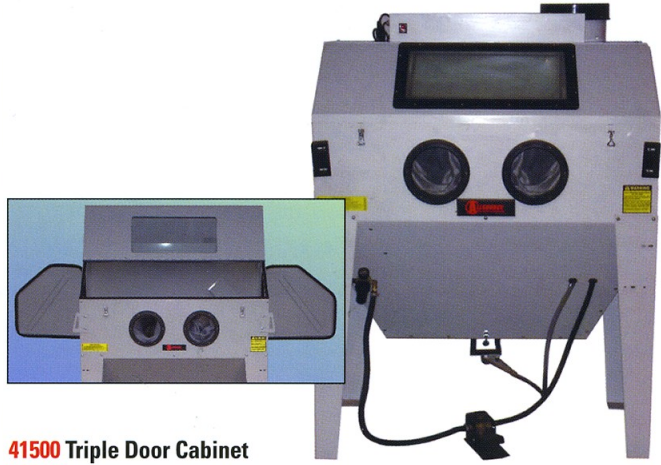

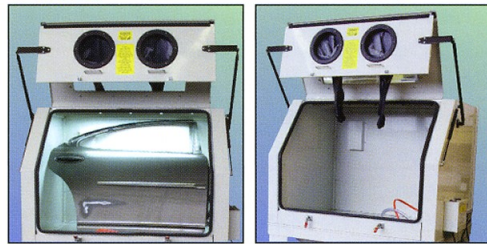

## QUALITY BLAST CABINETS

### STEEL BLAST CABINETS

Heavy-duty 14 gauge steel / Rear-mounted 90 CFM dust collector / Air pressure regulator / Includes foot pedal, florescent lights, heavy-duty blast gloves, protective window & light underlayments and (2) 15/64" & (2) 9/32" nozzles / Some assembly required

**41500 Triple Door Cabinet**

- Gas-charged hydraulic hinges
- Lighted power controls
- Large easy loading opening

**41800 The Monster Cabinet**

Model No.	Operating psi	Air Consumption CFM @ 80 psi	Work Area (WxHxD)	Main Door Opening	Side Door Opening	Window Dimension	Door Open Height	Abrasive Capacity Min.	Grate Capacity	Overall Dim. (WxHxD)	Weight	Warranty

41800	80-110	15-20	46"x33"x34"	29"x38"	No	30"x15"	85"	50 lbs.	400 lbs.	52"x70"x47"	443 lbs.	1 Year

## STANDARD PRESSURE BLASTERS

\*Heavy-duty 3/8" ball valves and fittings / Safety pressure relief valve / Pressure gauge / Includes all steel deadman handle\*\* / Includes blast hood, funnel & nozzles / 6" Wheels† / Ships UPS

**41001 5 Gallon Capacity**  
• Uses type 2 ceramic nozzle

**41002 10 Gallon Capacity**  
• Uses type 2 ceramic nozzle

**41003 20 Gallon Capacity**  
• Uses type 2 ceramic nozzle

**41600 90 Lb Capacity**  
• Uses large type 1 ceramic nozzle

## QUALITY PRESSURE BLASTERS

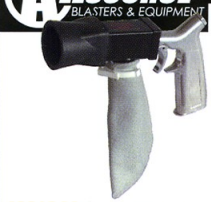

- \*1/2" Ball valves, fittings and 1/2" I.D. blast hose
- \*\*Large heavy-duty steel deadman handle
- †Built-in funnel
- Pull up tank closure
- †8" Wheels

Model No.	Operating psi	Air Consumption CFM @ 80 psi	Pull-Up Tank Closure	Abrasive Capacity	Blast Time (Approx)	Hose I.D. x Length	Tank Dimension	Tank Volume	Overall Dimension	Weight	Ceramic Nozzles Included (in.)	Warranty
41001	80-110	6-20	No	40 lbs.	15-20 Min.	3/8" x 8'	10"x15"	0.4 cu. ft.	16"x12"x30"	34 lbs.	3/32, 7/64, 1/8, 9/64	1 Year

41600	80-110	7-15	Yes	90 lbs.	30-45 Min.	1/2" x 8'	10"x25"	0.9 cu. ft.	18"x14"x38"	58 lbs.	1/8, 3/32	1 Year

## SIPHON BLASTERS

## QUALITY BLASTERS

**4001344 Spot Blaster**  
• Self recycling - dust free  
• 1 lb. of abrasive included  
• 1/4" steel nozzle  
• Perfect for small jobs

**4001544 PortaBlaster**  
• Use abrasives or liquids  
• 10' hose length  
• Unlimited capacity  
• 7-15 CFM @ 80 psi min.  
• 13/64" & 1/4" steel nozzle included

**4001244 Bottle Blaster**  
• Use abrasives or liquids  
• One quart capacity  
• 15 CFM @ 80 psi  
• 1/4" steel nozzle  
• Light weight & portable

## VacBlast Blast - Vac - Collect - Recycle

**41700 VacBlast**

### BLAST AWAY DIRT, RUST, PAINT & MORE!

For Use with Abrasive Media Including: Glass Beads, Aluminum Oxide, Steel Grit, Corn Cob, Walnut Shells, Plastic and Other Abrasives.

- Powerful vacuum system reduces abrasive consumption 90% by recycling material
- Ideal for automotive, marine & industrial refinishing
- Top opens easily to load abrasive & access filter for cleaning
- Perfect for use in large and small spaces that need to stay clean & free of debris
- Powerful turbine system reduces clean-up time

Photographic or typographic errors are unintentional and subject to correction. Due to the nature of printing and our evolving production, product colors may vary the actual product.

## BLASTER NOZZLE & NOZZLE KITS

MANY ARE PROUDLY  
MADE IN THE USA

Choose the right nozzle: 1.) The nozzle should be 3-4 times larger than the grit size of abrasive being used, 2.) Available CFM of air from the air compressor, 3.) size of the spray pattern. / Matching air jet is required for siphon nozzle. Air jets need to be replaced every 2 (ceramic) to 3 (steel) nozzle replacements.

	Model No.	Type	Size	Nozzle CFM	Material	Kit No.	Kit Includes	Made in USA
	40067	Pressure	3/32"	7CFM @ 80 psi	Ceramic	40292	2 nozzles and gasket	Yes
	40068	Pressure	1/8"	15CFM @ 80 psi	Ceramic	40293	2 nozzles and gasket	Yes
	40069	Pressure	5/32"	25CFM @ 80 psi	Ceramic	40294	2 nozzles and gasket	Yes
	40070	Pressure	3/16"	40CFM @ 80 psi	Ceramic	40295	2 nozzles and gasket	Yes
	40071	Pressure	1/4"	80CFM @ 80 psi	Ceramic	40296	2 nozzles and gasket	Yes
	40072	Pressure	5/16"	125CFM @ 80 psi	Ceramic	40297	2 nozzles and gasket	Yes
	Kit Only	Pressure	3/16"	30CFM @ 80 psi	Ceramic	40366	3 nozzles for 41001, 41002, & 41003	No
	Kit Only	Pressure	9/64"	20CFM @ 80 psi	Ceramic	40355	3 nozzles for 41001, 41002, & 41003	No
	Kit Only	Pressure	1/8"	15CFM @ 80 psi	Ceramic	40356	3 nozzles for 41001, 41002, & 41003	No
	Kit Only	Pressure	7/64"	10CFM @ 80 psi	Ceramic	40357	3 nozzles for 41001, 41002, & 41003	No
	Kit Only	Pressure	3/32"	6CFM @ 80 psi	Ceramic	40358	3 nozzles for 41001, 41002, & 41003	No
	Kit Only	Pressure	Variety	6-20CFM @ 80 psi	Ceramic	40372	1 each of: 9/64", 1/8", 7/64", 3/32", plus nozzle washer & nozzle nut	No
	40050	Siphon & Cabinet	13/64"	7 CFM @ 80 psi	Gold Steel	40053	3 nozzles, washer, air jet, & a wrench	Yes
	40051	Siphon & Cabinet	1/4"	15 CFM @ 80 psi	Silver Steel	40054	3 nozzles, washer, air jet, & a wrench	Yes
	40052	Siphon & Cabinet	5/16"	20 CFM @ 80 psi	Black Steel	40055	3 nozzles, washer, air jet, & a wrench	Yes
	40056	Siphon & Cabinet	13/64"	7 CFM @ 80 psi	Ceramic	40059	2 nozzles, washer, air jet, & a wrench	Yes

41916	41800	5pk	Light

## ALC BLAST HOSES

**Includes:**  
Blast Hose, Hose Clamp,  
Steel Hose Adapter

Model No.	Size	Model No.	Size
40117	1/2" ID x 10'	40120	1/2" ID x 25'
40118	1/2" ID x 15'	40121	1/2" ID x 50'
40119	1/2" ID x 20'		

## CABINET GLOVES

Model No.	L x Gauntlet	Use With
40248	24"x6"	40403 / 40411 / 40413
41515	24"x7"	41500
40249	33"x7"	41800

## ALC BLASTER ACCESSORIES

Separate debris from any media, new or reused. / Great for reusing abrasives! Prevents clogged nozzles from pieces of paint, rust and other particles. For use with all blasters: siphon, pressure and cabinets.

**41908**  
Fine Mesh Strainer  
.011 Mesh

**41907**  
Funnel Strainer  
.053 Mesh

**41905**  
Standard Strainer  
.053 Mesh

Made of H.D. stamped steel. / Keeps small parts (fittings, fasteners, screws, etc.) from falling through blast cabinet grate.

**41910**  
Small Parts Blasting Tray  
• Fits ALC cabinets & many other cabinets  
(18" L x 10-3/16" W x 2-1/8" D)

**41909 Small Parts Blasting Basket**  
• 5" handle makes it easy to blast small hard to hold items

## ALC ABRASIVES & USE

Generally, harder abrasives are used to blast hard material surfaces and softer abrasives are used for general cleaning, de-burring, when soft material surfaces are being blasted or where surface heat is critical. We suggest experimenting with different abrasives at different air pressures to determine which works best for individual applications. Note: The size of the blaster nozzle should be three to four times larger than the grit size of the abrasive being used. The larger the nozzle size the more CFM of air is required.

**40093 Coal Slag 25 lb., 40 Grit, .025"** Approx. Size  
Coal Slag abrasive is a fast cutting, economical abrasive used to remove heavy rust scale or paint from steel and other hard materials. This abrasive is typically used in a pressure blaster or siphon blaster where the abrasive is not being recycled. Coal slag is moisture resistant and does not pack which reduces clogging. This abrasive has sharp angular edges and provides a high degree of etch for surface preparation and coating adhesion.

**40098 Aluminum Oxide 25 lb., 60 Grit, .016"** Approx. Size  
Aluminum Oxide abrasive is a high quality, fast cutting abrasive typically used in a Blast Cabinet or where the abrasive is being recycled. Aluminum Oxide stays sharp and has a longer life cycle than other abrasives. This abrasive penetrates deep in to hard metal surfaces and is an excellent choice where a semi course finish is desired. This abrasive can also be used for glass etching. **Also Available:** 4 lb. and 50 lb.

**40126 Garnet 25 lb., 60 Grit, .016"** Approx. Size  
Garnet abrasive is a quality, fast cutting wear resistant abrasive similar to Aluminum Oxide but at a lower cost. Garnets angular shape stays sharp and leaves a flat finish. Garnet is an excellent choice for surface preparation prior to painting hard metal surfaces. Garnet is typically used in a Blast Cabinet or where the abrasive is being recycled. This abrasive can be used for glass etching.

**40109 Steel Grit 25 lb., 60 Grit, .016"** Approx. Size  
Steel Grit abrasive is a fast cutting wear resistant abrasive that leaves a semi-smooth finish on steel and other hard metals. Steel Grit is an excellent choice for stripping paint or removing rust from hard metal surfaces. Steel Grit is typically used in a Blast Cabinet or where the abrasive is being recycled.

**40105 Glass Bead 25 lb., 80 Grit, .015"** Approx. Size  
Glass bead abrasive is used when a smoother, brighter or matte finish is desired. Glass Bead is typically used in a Blast Cabinet or where the abrasive is being recycled. Glass bead is an excellent choice where light cleaning, surface rust, corrosion or de-burring of Aluminum and other soft metals. This abrasive can be used for subtle glass etching projects. **Also Available:** 4 lb. and 50 lb.

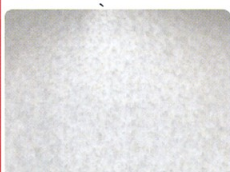

**41110 Plastic Grit 10 lb., 30 Grit, .032"** Approx. Size  
Plastic Grit abrasive removes light surface rust or corrosion with out etching the surface. Plastic Grit is an excellent choice for cleaning, stripping and de-burring soft metals with out generating much surface heat. Plastic Grit is typically used in a Blast Cabinet or where the abrasive is being recycled. This abrasive produces very little dust and improves visibility in a Blast Cabinet. **Also Available:** 25 lb.

**40112 Walnut Shells 10 lb., 20 Grit, .053"** Approx. Size  
Walnut Shells abrasive is used for cleaning and surface preparation of soft metals, glass, chrome, fiberglass or hard wood surfaces where no pitting is desired. Walnut Shells is typically used in a Blast Cabinet or where the abrasive is being recycled. Walnut shells can also be used to remove graffiti from most solid surfaces.

**40125 Corn Cob 50 lb., 20 Grit, .053"** Approx. Size  
Corn Cob abrasive is used for cleaning and surface preparation of delicate surfaces like copper, brass and wood. Corn Cob is softer than Walnut Shells and is typically used in a Blast Cabinet or where the abrasive is being recycled. Corn cob can also be used in many applications of surface cleaning including log homes and removing smoke damage on wood surfaces.

**40127 Bicarbonate Soda 20 lb., 50 Grit, .020"** Approx. Size  
Bicarbonate Soda abrasive is a special crystalized version of baking soda specifically manufactured for Soda Blasting. This abrasive is typically used in a pressure blaster and can not be recycled, as it breaks down on impact. Soda is used to strip paint and light oxidation with out etching or warping the surface. Soda Blasting generates very little to no heat and will not warp the surface. Soda is also safe on glass, chrome and rubber which makes Soda a great choice for vehicle paint stripping and restoration projects. Soda is environmentally friendly and can be used for many cleaning applications from delicate surfaces.

**WARNING:** The use of sand or any silica based products exceeding .1% (.001) silica is strictly not recommended in any abrasive blaster. Use of such materials could be seriously harmful to your health and even cause death. Always wear proper respiratory equipment when operating an abrasive blaster. Consult OSHA/NIOSH or other Safety sources for the proper type of respiratory equipment.

## ALC ABRASIVE BLAST SUIT

- Protects from rebounding of abrasives & debris
- Light weight suit helps reduce fatigue & overheating
- Durable nylon on front & breathable cotton on back helps to keep the operator cool
- Excellent choice for short term or intermittent blasting jobs
- Also great for non-blasting persons working near the blast area
- Easily handles painting & other messy projects
- Hook & loop closures and elastic waste band for sizing and comfort
- Front closure snap flap covers heavy duty zipper
- Large collar helps protect the neck area
- One size larger than typically worn is recommended when wearing over clothing
- Wash by hand in mild detergent, drip dry

**Available Sizes:** (32" Inseam on All)

<b>41420 Small</b>	<b>41424 XXL</b>
<b>41421 Medium</b>	<b>41425 XXXL</b>
<b>41422 Large</b>	<b>41426 XXXXL</b>
<b>41423 XL</b>	<b>41427 XXXXXL</b>
